**EQUAL OPPORTUNITY IN ATHLETICS**

TITLE IX: It is the policy of the Storey County School District that all students have equal opportunity to develop to their full potential in inter-scholastic athletics. The District will strive to provide and support a balanced athletic program for both female and male student athletes.

To achieve this goal, it is necessary that both female and male sports have equal access to facilities in each sport. Where there exists a demand for a particular facility by both male and female teams in the same sport, then a schedule will be worked out by the athletic director to achieve parity of use.
